Talk 4: For what? What is Our Vision?

What is our Vision in the Renewal? What is our vision as Church?

There is a real danger that we make the means into an end. This will happen when the New Evangelization becomes all about getting more people converted, and little attention to what they are being converted for. It raises the question; what is the content of the gospel message? Is the gospel message just about knowing Jesus and having your sins forgiven? Is it about building Christian community? Is it good news for individuals? For society? For the whole creation? Is it about the resurrection of the dead (central in the New Testament), about the Kingdom of God and the coming of the Lord in glory?
